

# PROMSNABINVEST

## Limited Liability Company

### History of the company

In 2006, a group of specialists who had 20 years of working experience at a large instrument-making enterprise in the field of electronics and including the production of metering devices, founded the PSI (Promsnabinvest) company.

Since the company's inception, more than 2 million devices have been manufactured.

Instruments manufactured by Promsnabinvest are in operation throughout Ukraine, deliveries under contracts were carried out in 13 power companies: Kharkovoblenergo, Kyivoblenergo, Dneproblenergo, Mykolaivoblenergo, Khmelnytskoblenergo, Vinnytsiaoblenergo, Lvivoblenergo, Ivano-Frankivsk (Prykarpattya), Khersonoblenergo, Chernivtsioblenergo, Sevastopoloblenergo.

The PSI company conducts a constant and systematic work with those services of energy companies in terms of improving and modernizing the delivery of equipment.

As a result, there is a constant modernization, which fully meets the requirements and wishes of customers in accordance with the changes in the market conjuncture.

The percentage of failure devices - less than 0.02%, which is the best indicator for the industry.

Over 200,000 units produced by Promsnabinvest are installed on HOE networks.

Certificate ISO 9001: 2009.

The production capacity of the enterprise allows more than 1 million meters per year.
